13 June**

### 3 Month Course

1 - 10 Staff: R3 000 pm  
11 - 20 Staff: R4 000 pm  
**21 - 50 Staff: R6 500pm**

## What will I learn?

### In Brief

Equip yourself with the skills to harness the power of AI in education with our 3-month online course for teachers. Learn to demystify AI, overcome fears and answer pressing questions about its impact on jobs and privacy. Empower your teaching with innovative AI tools to elevate lesson quality, automate assessments and maintain meaningful student connections. Discover practical AI lesson ideas, ethical guidelines and use student journals to explore AI's effects and future.

### The Live Training Session Themes

Live Workshop 1 - Demystify, Empower & Navigate AI in your School and your classroom  
Workshop 2 - Hands on Workshop on AI for Content Creation  
Workshop 3 - Hands on Workshop on AI for Assessment

### This package equips all teachers to:

- Demystify the unknown and fears of Artificial Intelligence in education. We answer questions like: "Will it take my job?" "Are there privacy concerns?" and "Does AI make my students lazy?"
- Feel empowered by their knowledge and practical application skills to use AI as a Jetpack for Learning - taking learning to new heights of innovation and creativity.
- Use AI in the classroom while maintaining an emphasis on relationships and connections (the human-centred approach).
- Use AI to improve the quality of lessons, worksheets, quizzes and assessments (to inspire meaning, relevance and curiosity), ensuring they are linked to the assessment standards of the country/region.
- Use AI to automate assessment marking and the creation of accurate rubrics.
- Become aware of practical lesson ideas to implement AI at varying degrees based on the outcomes/assessment standards of the lesson.
- Use the provided guidelines to show students how to use AI ethically in the classroom.
- Use the provided Student Journals to discuss AI, its effects, implications and future.
