

Keller Education

Our **Top 10** for Teachers

These ten presentations are our **most requested, most loved, and most impactful** - empowering educators to create classrooms where curiosity, connection, and confidence thrive.

Choose your topic, duration and method.

Each of these sessions can be booked as a:

75 minute - 2 hour **online session**,

or as an **in-person workshop** for 90 minutes, 2 hours or 3 hours.

After each session, schools receive a summary document capturing key learning and simple, **practical application ideas**.

And because every session over 90-minutes is **SACE-accredited**, your teachers not only grow in confidence and skill - they also earn those valuable **CPTD points!**

Hot Topics

AI as a Jetpack for Learning

Cut through the noise of AI hype. This workshop gives educators clarity and focus, showing how to harness AI tools to boost creativity, save time, and sharpen teaching impact, without losing the human touch.

Assessment - Why We Get it So Wrong

Rethinking Learning Through the Lens of the Brain. Discover why teaching doesn't always lead to learning and how assessment can become the engine that drives lasting understanding.

Building Brains, Bodies, and Belonging

Creating the Conditions Where Every Child is Ready to Learn. Discover why movement, play and belonging aren't distractions from learning, they're the very foundations that make learning possible.

Differentiation in Today's Classroom - The Myth of Normal

Drawing from Todd Rose's End of Average and Arthur Toga's brain development research, this session challenges traditional labels and grading systems. Teachers will discover six simple, high-impact hacks to make lessons more inclusive, engaging, and brain-friendly without extra workload.

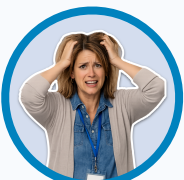

Empathy in a Broken World

In the age of AI, emotional intelligence matters more than ever. Learn why developing socio-emotional skills is a non-negotiable, and how teaching emotional literacy transforms learners' lives.

Happy Teachers, Healthy Classrooms

Joy is contagious. Explore how teacher wellbeing, laughter, and simple mindset shifts ripple into every corner of the classroom, creating happier learners and healthier schools.

Kids & Teens Who Challenge Us

Every behaviour tells a story. In this eye-opening session, teachers learn to decode the hidden messages behind challenging behaviour and respond with empathy, strategy, and confidence.

Reactive to Responsive - Zip the Crocodile

The brain made simple! Gain a fun, practical understanding of how the brain works - essential knowledge you can use daily to manage emotions, guide learning, and unlock potential.

The Shine Effect

Reconnecting Purpose. Reigniting Passion. Helping Every Educator Shine. Combining neuroscience, wellbeing and practical strategies, explore Keller Education's SHINE Framework to build resilience, strengthen relationships and create learning environments where educators and learners flourish.

Taming the Parent - Calm, Clear, Confident

Equip your teachers to build their confidence, language and professional posture to communicate with parents calmly, clearly and confidently, even in the most challenging conversations.
